

October 2021

Dear Parent/Carer

Accelerated Reader

I am excited to announce that we will be introducing Accelerated Reader at Outwood Academy Hasland Hall.

Accelerated Reader is a programme that will enable your child to read books that are appropriate to their reading ability, check their comprehension by taking a quiz at the end of each book and monitor their reading progress through a Star Reading Test each term.

Your child's English teacher will give your child dedicated time in English lessons to read their books, will monitor the complexity of the books they are reading and will support your child throughout the process.

We will begin STAR reading tests next week, once completed, we will start the process of ensuring that students have their books from the library.

You can support your child by encouraging them to read for 20 minutes each day, discussing with them what they are reading and ensuring that their book is in their bag each day.

Should you have any questions about Accelerated Reader please contact me by email a.whitfield@haslandhall.outwood.com

Yours sincerely

Alice Whitfield
English Teacher
